King George Square
Cnr Ann and Roma Streets
BRISBANE Q 4000**

"So slight and nearly imperceptible are the first inroads of this malady, and so extremely slow its progress, that it rarely happens, that the patient can form any recollection of the precise period of its commencement"

**An Essay on the Shaking Palsy (1817)
James Parkinson**

PARKINSON'S QUEENSLAND ANNOUNCES CLYDE CAMPBELL AS 2019 JAMES PARKINSON'S ORATOR

Parkinson's Queensland President and National Vice-President, **Professor George Mellick** today announced that **Mr Clyde Campbell**, Founder of the **Shake it up Australia Foundation** will present the Parkinson's Queensland Inc **2019 James Parkinson Oration** at a corporate luncheon event to be held in Brisbane at the **Pullman Brisbane, King George Square** on **World Parkinson's Day**, Thursday **11th April 2019**.

Attendees at the event will include senior State Government members and representatives and officials, corporate leaders, Senior Bureaucrats, donors, stakeholders and media. Of course, Parkinson's Queensland will also be engaging with federal representatives and senators and, above all, our Parkinson's family.

Mr Campbell will speak on the recently announced **Australian Parkinson's Mission** and its importance to Australia's research, as well as his passionate involvement as a key stakeholder, influencer and person living with Parkinson's.

Professor Mellick said "Clyde Campbell's preparedness to deliver Parkinson's Queensland's 2019 James Parkinson's Oration is significant acknowledgement of the role of research in finding a cure and will lift the awareness of Parkinson's nationally. His participation will be well regarded across all levels of research, politics, business and philanthropy while emphasising the importance of everyone working in collaboration towards a common goal; finding a cure for Parkinson's. We are honoured Clyde will make Brisbane the location for World Parkinson's Day this year. "

Parkinson's Queensland will also announce a number of Travel Awards intended to assist Higher Degree by Research (HDR) students to attend the 5th World Parkinson's Congress to be held in Kyoto, Japan, during the luncheon proceedings.

HDR AWARDS TO WPC2019 – KYOTO, JAPAN

The Management Committee of Parkinson's Queensland Inc (PQI) has committed to providing Travel/Study Awards to assist Queensland based Higher Degree by Research (HDR) students attend the 5th World Parkinson's Congress (WPC 2019) to be held in Kyoto, Japan (June 2019).

PQI believes in the importance of supporting, where possible, those HDR students who are actively engaged in this vital area of research. It is why PQI has introduced its Conference Travel Support program to assist in reinforcing the importance of the role of researchers within the Parkinson's community.

PQI is keen to enable Awardees to become exposed to the leaders of global research into all aspects of Parkinson's Disease in both a formal and social environment. WPC 2019 will be a life impacting experience.
